How to open and close the Sphinx Box?

The Sphinx Box is an unique collection of the puzzle box series. It may take some time to open it in your first try without the manual. Here's the steps of how to open and close it. You need to push the straight bar in the order of numbers, and in the direction of the arrow and wiggle the parts a bit to find the internal passage.

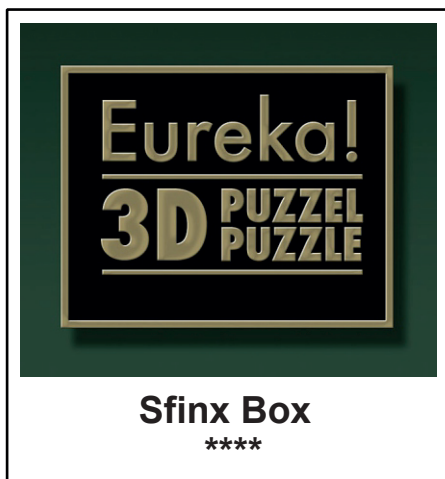

Steps on how to open the Box:

Follow the numbers and arrows, then you can open the box by sliding...

open the cover

P.S. It may be possible that your Box is assembled in the opposite direction. In that case you will have to rotate the Box 180°. The image will be upside down in that case.
