Solution part 1

Completed puzzle and piece configuration
(viewed from the front)

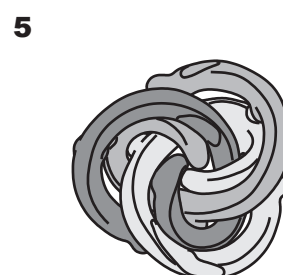

Completed puzzle and piece configuration
(viewed from the back)

Overview:
The 3 pieces separate from each other when
their parts crossing over onto the other
pieces move towards the bottom ends of
the pieces

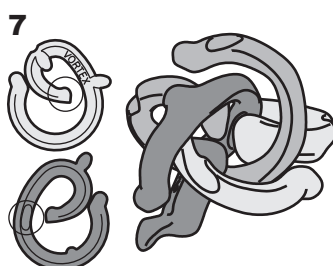

Loosen the bundle by shifting
each of the 3 pieces.

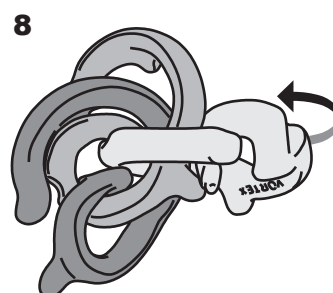

The 3 pieces viewed from the front

As you shift the pieces, the bundle
will make a clanking sound and move.

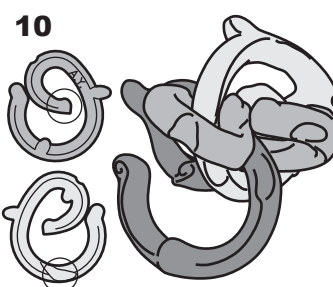

Join the top end of the "VORTEX" piece
to the hollow of the "HANAYAMA" piece.

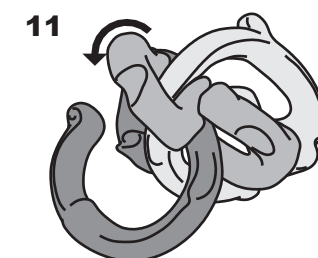

The top end of the "VORTEX" piece
is clear of the bundle.

When the top end of the "VORTEX" piece is
clear of the bundle, join the top end of the "AY"
piece to the hollow of the "VORTEX" piece.

Clear away the top end of the "AY" piece
from the hollow of the "VORTEX" piece.

Now, move the "HANAYAMA" piece
to where it isn't in the way.

Solution part 2

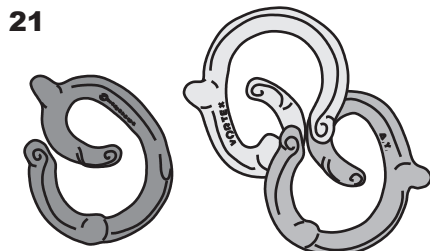

The top end of the "AY" piece is clear of the bundle.
Next, prepare to join the top end of the "HANAYAMA" piece to the hollow of the "AY" piece.

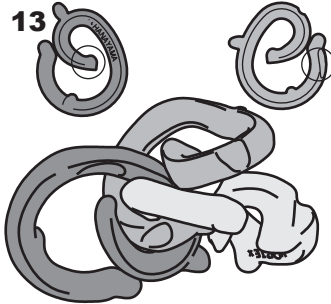

The top end of the "HANAYAMA" piece is clear of the bundle.

The trick here is to join the top end of the "AY" piece to the hollow of the "VORTEX".

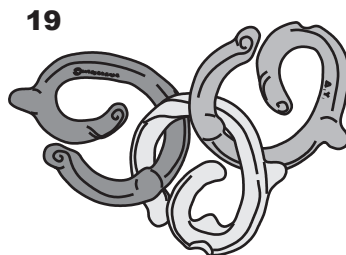

Once the "AY" piece and the "HANAYAMA" piece are removed, all 3 pieces can be separated.

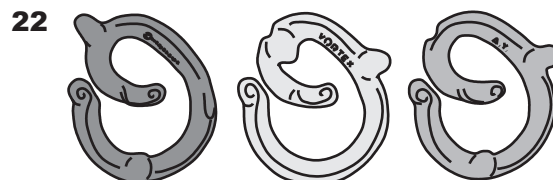

The 3 pieces will look like the diagram.

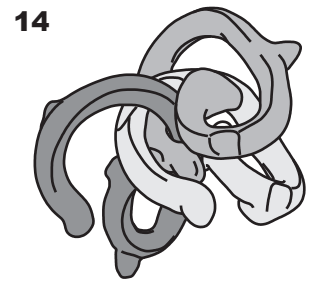

The tails of the 3 pieces will then look like they are tangled together.

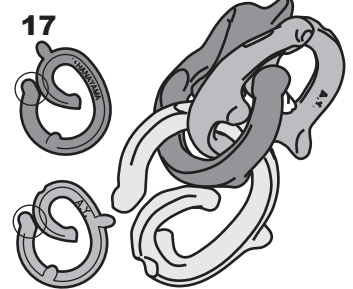

When the "AY" piece and the "HANAYAMA" piece come apart, the 3 pieces will look like they are connected in a chain as in the diagram.

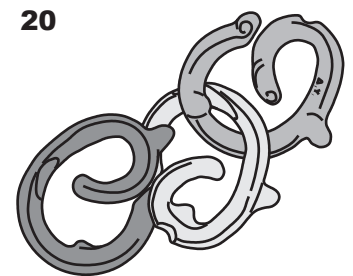

After observing the differences of the 3 pieces, put them back together, paying attention to the order in which you joined them.

The top end of the "HANAYAMA" piece is clear of the "AY" piece.

Join the bottom ends of the "HANAYAMA" piece and the "AY" piece and clear them from the bundle.

All that is left to do is to remove each piece starting with the "HANAYAMA" piece.
